Tenant Drinks

Tenant Drinks were held on Wednesday 19th April, we had a great turn out and it was lovely to see so many faces, thank you to everyone who joined us.

The next drinks will be held on 7th July. Here's hoping for some warmer weather so we can make use of the roof terrace!

D.I.Y KIDS ARTS & CRAFTIVISM

Clair Hawkshaw, Multimedia Artist
@ Imagination Studio, Lion House

Albion Kids has its roots in the East Anglian Fairs which developed into a significant feature of rural counter culture in Britain. Mr T Meyer and his son Merlin set up the touring show in 1979.

Albion Kids Show became a children's charity in 1984, facilitating play in Hackney and many other London boroughs and bringing their amazing mobile play spaces to urban areas, engaging young children and their carers in music, dance, circus and performance arts.

In 2017 Clair brought the vehicles and booth back to Norfolk to be restored before the charity came to a halt in 2019. Clair also managed to salvage the pirate ship from the remaining trustee and brought that back to Norfolk too.

The project aim is to restore these and enable them to continue bringing creative play to children at all manner of events in Norfolk and Suffolk once again.

On Saturday 10th June Aneliese and Dan from Unite Marketing & Events are taking part in Pier 2 Pier Norfolk 2023 which will see the way 32 miles from Cromer Pier to Great Yarmouth Pier in aid of EACH. [EACH](#) cares for children and young people with life-threatening conditions across Cambridgeshire, Essex, Norfolk and Suffolk and support their families.

The key services which they provide includes: specialist nursing care, symptom management nursing, short breaks, wellbeing activities, therapies and counselling; all meeting the individual needs of the child, young person and whole family.

Norfolk Coast Might Hike

Time4Advice are hiking a marathon along the picturesque Norfolk coastline on May 20 in aid of MacMillan Cancer Support.

Lucy says " I'll be honest, this is much more difficult than I envisaged! Walking for what will be several hours takes it's toll on your body and in my case, my feet! Blisters are a real challenge, but there's real determination that we'll all make it given the cause.

Macmillan gives people with cancer everything they've got. If you're diagnosed, your worries are Macmillan's worries. Macmillan's doing whatever it takes. But without your help, Macmillan can't support everyone who needs them. Donating through [JustGiving](#) is simple, fast and secure. Your details are safe, JustGiving - they'll never sell them or send unwanted emails. Once you donate, they'll send your money directly to the charity. So it's the most efficient way to donate - saving time and cutting costs.

Run Norwich

July 2023

"On July 16th I'll be taking part in Run Norwich for Community Sports Foundation.

You can donate via Clare's Just Giving page [here](#)

CSF provide a range of opportunities for people with disabilities to take part in sport, including football, swimming, dance, and more. Their sessions provide an inclusive environment for people to enjoy sport at a comfortable pace.

As Norwich City Football Club's official charity partner, they help thousands of people every year achieve their goals through sport, supporting some of the most disadvantaged, disabled and talented people across Norfolk. The vision is to support, inspire, and improve our community.

News from the world of Beanman!

In his St Marys Works studio home Beanman and his relatives come into the world. He isn't shy and he doesn't hide himself away, even though he isn't always polite.

He has his own opinions about a lot of things but he doesn't really try to convince anybody, he just does his best to be there - big and bold!

In June he has a Works Outing with his friends, he will be spending ten days in the well known holiday destination of The Shoe Factory Social Club, part of the show Confound with The Lonely Arts Club. June 8 to 18, 11 to 5.

New manifestations of Beanman and his friends and relatives appear all the time, the Beans are happy to see visitors in Studio 13, St Mary's Works and show off their latest adventures. Why not ruin the surprise by getting in touch first.

Bean Man is you and me
Bean Man omits the detail
Bean Man speaks the obvious
Bean Man lives his life one simple statement at a time
Bean Man is very polite
Bean Man lives in the present
Bean Man is miming the tip of the iceberg

Gallery Opening Hours: 10am-5pm Tues-Sat.
Anteros Arts Foundation, 11-15 Pye Bridge Street, NR3 1LJ

Having had a connection with Anteros Arts Foundation for many years, I readily said "yes" to the opportunity to exhibit in the Gallery in Spring. I knew immediately what the theme would be.

In the last fifteen years I have taken root in this wonderful, historically vibrant, medieval quarter of the city. When not painting and sketching, I'm also an enthusiastic community gardener at the nearby Oasis garden between Anteros and Fye Bridge.

My intention is to draw people, not only to my work, but also to the medieval church gardens that pepper this interesting

area. It was through the wider City community gardening group that I discovered the nearby Botanist Garden just around the corner at St Martin-at-Palace, for example, celebrating the rich botanical history of our city. To this end, I approached George Ishmael of Heavenly Gardens and Paul Dickson, our local walking tour historian, and am thrilled to report that there will be two guided walks (commencing at Anteros) on each Tuesday during the exhibition (book at www.pauldicksontours.co.uk)

We will start taking pre-orders for our patented Phase 1 rollout of Hybrid Grid Solar Cabinets towards the end of April. They are about the best payback period for any new hybrid grid and solar deployment, full stop. They contain powerful off grid inverters and the latest rack mounted 48V LiFePO4 cells.

We are offering to St Georges Works clients and or network members in the east anglia area 15% off (or more if we like them) if they wish to pre-order in our Phase 1 rollout with deployments starting summer 2023.

There are two types of cabinet on offer and both have features unlike any other solar hybrid grid offering today. In particular no roof install is required which opens up new options for solar installations where they were not previously possible.

The features of our patent pending vertical solar solution are;

- Better morning and evening and winter performance vs roof mounted panels.
- Charges overnight on off peak rates (currently 7-10p per KWh) and runs on the day on solar.
- No roof install required
- UPS (Uninterruptible Power Supply) for your house
- Highest quality Victron Energy components
- Up to 2-4 optional external solar inputs
- Requires an armoured power cable to be run to and from the meter cabinet in the property (not included)
- Cost includes delivery, VAT, Installation and Commissioning by a local accredited installer
- Take it with you when you move rather than sinking only an extra £1,500 on average in to your property

Last Thursday at the UK Probate Research Awards 2023 held at One Great George Street, London, Pro-Gen Research was recognised as being "highly commended" in the Best UK Probate Research Firm.

The shortlist was extensive and to come runner up to one of the largest research firms in the world is a huge achievement for a business which was born from a box bedroom seven years ago.

The awards organisers are planting a tree, in association with The National Forest, for each winner and each runner up of the fourteen categories.
